Resources under pressure How might it impact on you?

09.30 to 12.00 - February 25th

Scottish Enterprise Offices, Edinburgh

The move to global markets and the continuing rapid economic growth of the developing economies has highlighted the increasing pressure on the earth's key resources water, metals, minerals, fossil fuels from demand. This event will highlight the potential effect of these pressures on Scottish business, and evidence from businesses who have successfully implemented change

Keynote Presentation by:

SEPA
